SUMMARY

AI engineer with 2+ years building LLM-based features for HR and education products.

EDUCATION

Universitas Brawijaya - B.Sc. Computer Science, 2017 - 2021

EXPERIENCE

AI Engineer - PT Karya Digital Nusantara, Mar 2022 - Present

- Built a RAG pipeline with LangChain and FAISS that answers HR policy questions; cut ticket volume by 30%.
- Wrapped the service in a REST API and deployed it to AWS.
- Wrote Python evaluation scripts for prompt regression tests.

Data Scientist Intern - PT Analitika Mandiri, Jul 2021 - Dec 2021

- Trained XGBoost churn models with scikit-learn and reported results to stakeholders.
- Queried PostgreSQL for feature tables.

SKILLS

Python, SQL, scikit-learn, XGBoost, LangChain, FAISS, FastAPI, Docker, AWS, Prompt Engineering
